

FargoRate / BCAPL Scorer App

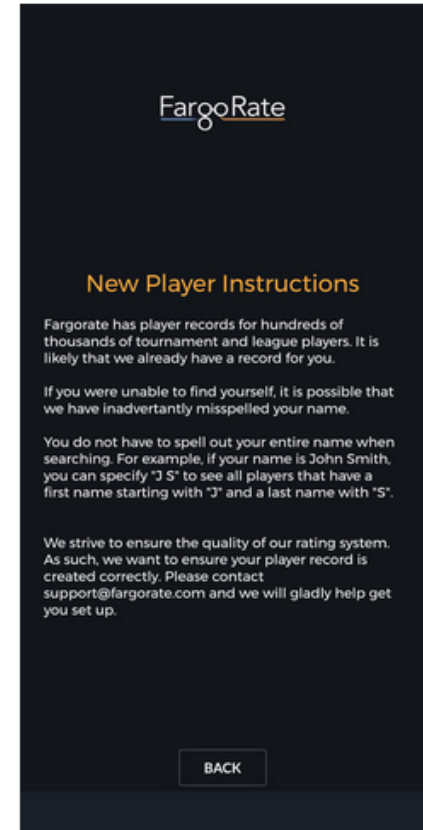

Find your FargoRate record by searching your name in the search field. If your name displays and you're confident that it's you (i.e. the correct name, city & state), select it. ---

If you already have an app account setup in FargoRate, it will display your record with your truncated email address and ask you to enter your password. If you don't remember your password, click "FORGOT PASSWORD."

If you have a FargoRate record but your app account is not yet setup, it will display your record with no email address and ask you to enter your email address & password. ---

If you can't locate your record, it may be that you don't have a FargoRate record at all. Contact them at support@fargorate.com. ---

Buttons: WIN, BR, TR, WB, WZ, -, +, RESET, DONE

***WIN** - awards the appropriate number of points based on the league's scoring method setting in LMS. (8 Ball - 17 points, 9 Ball - 1 point).

***BR** - awards the appropriate number of points based on the league's scoring method and also records it as a **break-and-run** for league tracking purposes.

***TR** - awards the appropriate number of points based on the league's scoring method and also records it as a table-run for league tracking purposes. **A table-run is when the non-breaking player wins the game at his or her first turn at the table.**

***WB** - awards the appropriate number of points based on the league's scoring method and also records it as a win-on-the-break for league tracking purposes. This is when a player **wins the game off of the break** (ex. 9-ball on the break).

***WZ** - awards the appropriate number of points based on the league's scoring method and also records it as a win-zip for league tracking purposes. A win-zip is when the **winning player won leaving their opponent with a score of zero.**

(-) - reduces the score by one (1) for each click.

(+) - increases the score by one (1) for each click.

RESET - resets the game scores for both players.

DONE - completes the scoring for the game and closes the "Score Game" screen.

***NOTE:** Due to the wide range of formats played by BCA Pool Leagues, the scoring app is built for maximum flexibility. Therefore, no error checking is included for game scores or handicap. For example, the FargoRate limit is 2,000. Both teams will be responsible for verifying this during league matches.*

Once all games and rounds are scored, the overall score should be reviewed by both teams. To submit the score sheet, click the **SUBMIT MATCH** button. Both teams are encouraged to score the match and compare score sheets at the conclusion of the match for accuracy. Both teams may submit the scores.

Match Handoff

Pass this handoff code to the next player:

5 3 1 7 7

If you started the scoresheet but need someone else to take over scorekeeping duties, you can "handoff" the scoresheet to someone else in the league with the Handoff feature.

To handoff score keeping, click the arrow icon in the upper right corner of the screen. This generates a handoff code. When your teammate selects the match using his or her mobile device, it will ask for this code. He or she can then pick up where you left off.

NOTE: The League Operator will see the match results in LMS and your leagues data will be automatically reported to FargoRate. If any part of a score sheet is incorrect, the League Operator can correct it in LMS.
